

2010 Tax-Credit Certified Solar Technicians

As of March 12, 2010

Following is a list of companies that employ one or more tax-credit certified solar technicians. The Oregon Department of Energy provides the list to assist Oregon taxpayers in obtaining a Residential Energy Tax Credit. A tax-credit certified technician completed Department of Energy tax credit training and an application verified by the Oregon Department of Energy. The technician must participate in conference call updates, complete an agreement form, complete four hours of continuing education and verify a minimum of two tax-credit certified installations each year to maintain his or her certified technician status. Oregon residents must have a tax-credit certified technician verify solar equipment to obtain a Residential Energy Tax Credit. The technician will assist you with the paperwork necessary to apply for the tax credit. Technicians who wish to become Oregon Department of Energy tax-credit certified solar technicians, should contact Angie Whitethorn at the Oregon Department of Energy (E-mail:angela.whitethorn@state.or.us) or call toll-free 1-800-221-8035 or (503) 378-4040 in Salem.

The Oregon Department of Energy does not make any warranty, expressed or implied, concerning the construction, operation, installation or any other characteristic or features of systems.

CITY	COMPANY	TECHNOLOGY	PHONE
Albany	Benton Electric	PV	(541) 936-0934
